

LaborSoft

NPELRA Establishes Preferred Provider Agreement With LaborSoft

NPELRA has been continuously seeking ways to enhance member services. Lately, we have been exploring top-quality labor relations and HR products and services to help members save time and increase productivity. We have been developing due-diligence practices to help us identify strategic alliances with potential labor relations and HR service providers. Our goal is to assist you, our members, with informed buying decisions within our profession.

With that in mind, NPELRA recently signed a *Preferred Provider Agreement* with **LaborSoft** that provides their LaborForce Software at an **NPELRA Member discount of over 30%**.

Membership has its advantages and now NPELRA members are eligible for the discounted pricing **ONLY** if they mention that they are an active NPELRA member verified by our current membership list.

Act now to find out more about the LaborForce Software and what this product can do to help your organization with managing personnel, incidents, discipline, grievances, arbitration, documents, work flow, specialized reporting and more. For more information, contact Jon Heelen at 1-800-214-3538 or visit: <http://www.laborsoft.com>

Why LaborSoft? According to NPELRA...

NPELRA has chosen LaborSoft as an NPELRA Preferred Provider because their Labor & Employee Relations Software (called LaborForce) provides a unique offering for Labor Relations and Human Resources professionals and managers in the public sector. After reviewing the functionality and benefits of LaborForce and speaking with several LaborForce clients, NPELRA has determined that their solution can provide tremendous value to many of NPELRA's members and their employers, who are currently managing much of their Labor Relations information via a combination of spreadsheets, "home made" databases and paper files.

The LaborForce Software is web-based and easy-to-use, and with the additional price savings provided to NPELRA members, NPELRA recommends that our members take a look for themselves and see if the LaborForce Software would make sense for their organization.

Jim Richter
President
NPELRA

The LaborForce Software Offering...

- Use a centralized system for all your Labor & Employee Relations needs
- Resolve Labor & Employee Relations issues in a timely and consistent manner
- Invaluable Research and Reporting Tool allows for streamlined Transfer of Knowledge to existing or new team members
- LaborForce is Web-Based, Affordable, & Easy-To-Use
- Go Online Quickly as Typical clients are using LaborForce within 30-60 days thanks to our streamlined 10 Step Implementation Process
- Synchronize with existing HR Systems to reduce duplicate data entry efforts and take reporting to the next level with various charting options & trend analysis tools to see what issues are occurring, who is involved, and identify where resources are being allocated
- Multiple upgrades per year ensure the LaborForce Software is always being improved upon based on the feedback we get from the LaborForce User Community
